

Schablone für Positionierung der Fläche zur Befestigung der Streben

The image shows a technical drawing of a template. It consists of a large rectangle with a semi-circular cutout at the top-left corner. A horizontal line is drawn across the top of the rectangle, starting from the semi-circular cutout and extending to the right edge. A small vertical tick mark is located on this line, approximately one-third of the way from the right edge. At the bottom of the rectangle, there are two vertical dashed lines, positioned roughly one-third and two-thirds of the way across the width. The text 'Schablone für Positionierung der Fläche zur Befestigung der Streben' is written in green in the upper-left area of the rectangle.
